

Energy Services

The world requires more efficient energy solutions. Our enthusiastic employees have the competency and the impact to realise this reduction potential.

Through investing in AF's profitable energy solutions our customers achieve large cost reductions as well as reducing their carbon footprint and demonstrating a sustainable business attitude.

Our 250 employees are trained in transforming their competency into concepts and solutions for energy production and optimum energy consumption within real estate, industry, offshore and the marine sector.

Through our offices in Norway and China we deliver projects in the Nordic countries, and increasingly in South East Asia and China. Please contact us for further information about the type of projects we offer near you.

AF Gruppen ASA is one of Norway's largest exchange-listed construction companies. The company has 2000 employees in Norway and Sweden, and has a turnover of more than NOK 5 billion in 2006.

AF is divided up into five business areas: property, building, construction, environment and energy. Our ambition is to be the natural choice to solve the most demanding tasks, preferably on the outer fringes of what is possible for a construction company. Our conduct is characterised by professionalism and high ethical standards.
